

Anonymous marking with GradeMark

If you want to use anonymous marking with GradeMark you will need to create a Turnitin assignment as normal.

When you reach the **Anonymous Marking** field make sure that you choose **Yes** from the drop down menu.

Anonymous Marking

Student Originality Reports

TURNITIN ADVANCED OPTIONS

Allow Late Submissions

Report Generation Speed

You will also need to set the **Report Generation Speed** field to **Generate reports immediately, reports can be overwritten until due date**.

This means that if a student submits the wrong assignment to the dropbox they can overwrite it until

the due date without needing to contact their module leader (which would negate the anonymous marking process).

For students, anonymous assignments behave in exactly the same way as identified assignments. You just need to make sure that students are advised not to include their name in the title of their work, the file name or in any headers or footers as this will defeat the purpose of the anonymous marking.

For staff the Turnitin interface will change slightly. If there are no submissions you will simply see an empty **Submission inbox** rather than a list of student names with no submission details.

Student Submission	Paper ID	Submitted	Similarity	Grade					
Part 1									
<input type="checkbox"/> Test submission	40259151	2/02/15, 10:31	Pending	-/100			(0)		
Anonymous Marking Enabled									

First Previous 1 Next Last Showing 1 to 1 of 1 entries.

You can then mark the work as normal using GradeMark.

If you need to identify the work, click on the **Anonymous Marking Enabled** button. You will need to complete the **Reason for Unmasking** field and then click on the **Reveal** button.
